

Announcement!

Bonus:
Bioinformatics & Genomics in Industry
Friday @ 1PM

TATA Hall, Kavi Auditorium (i.e. Upstairs!)

Come and enjoy a set of short open ended guest lectures from leading genomic scientists at **Illumina Inc.**, **Synthetic Genomics Inc.**, and **Samumed, LCC**. Come prepared for networking and to have your questions about industry careers in Genomics & Bioinformatics answered.

BIMM 143

Course Summary & Exam Preparation

Lecture 19

Barry Grant

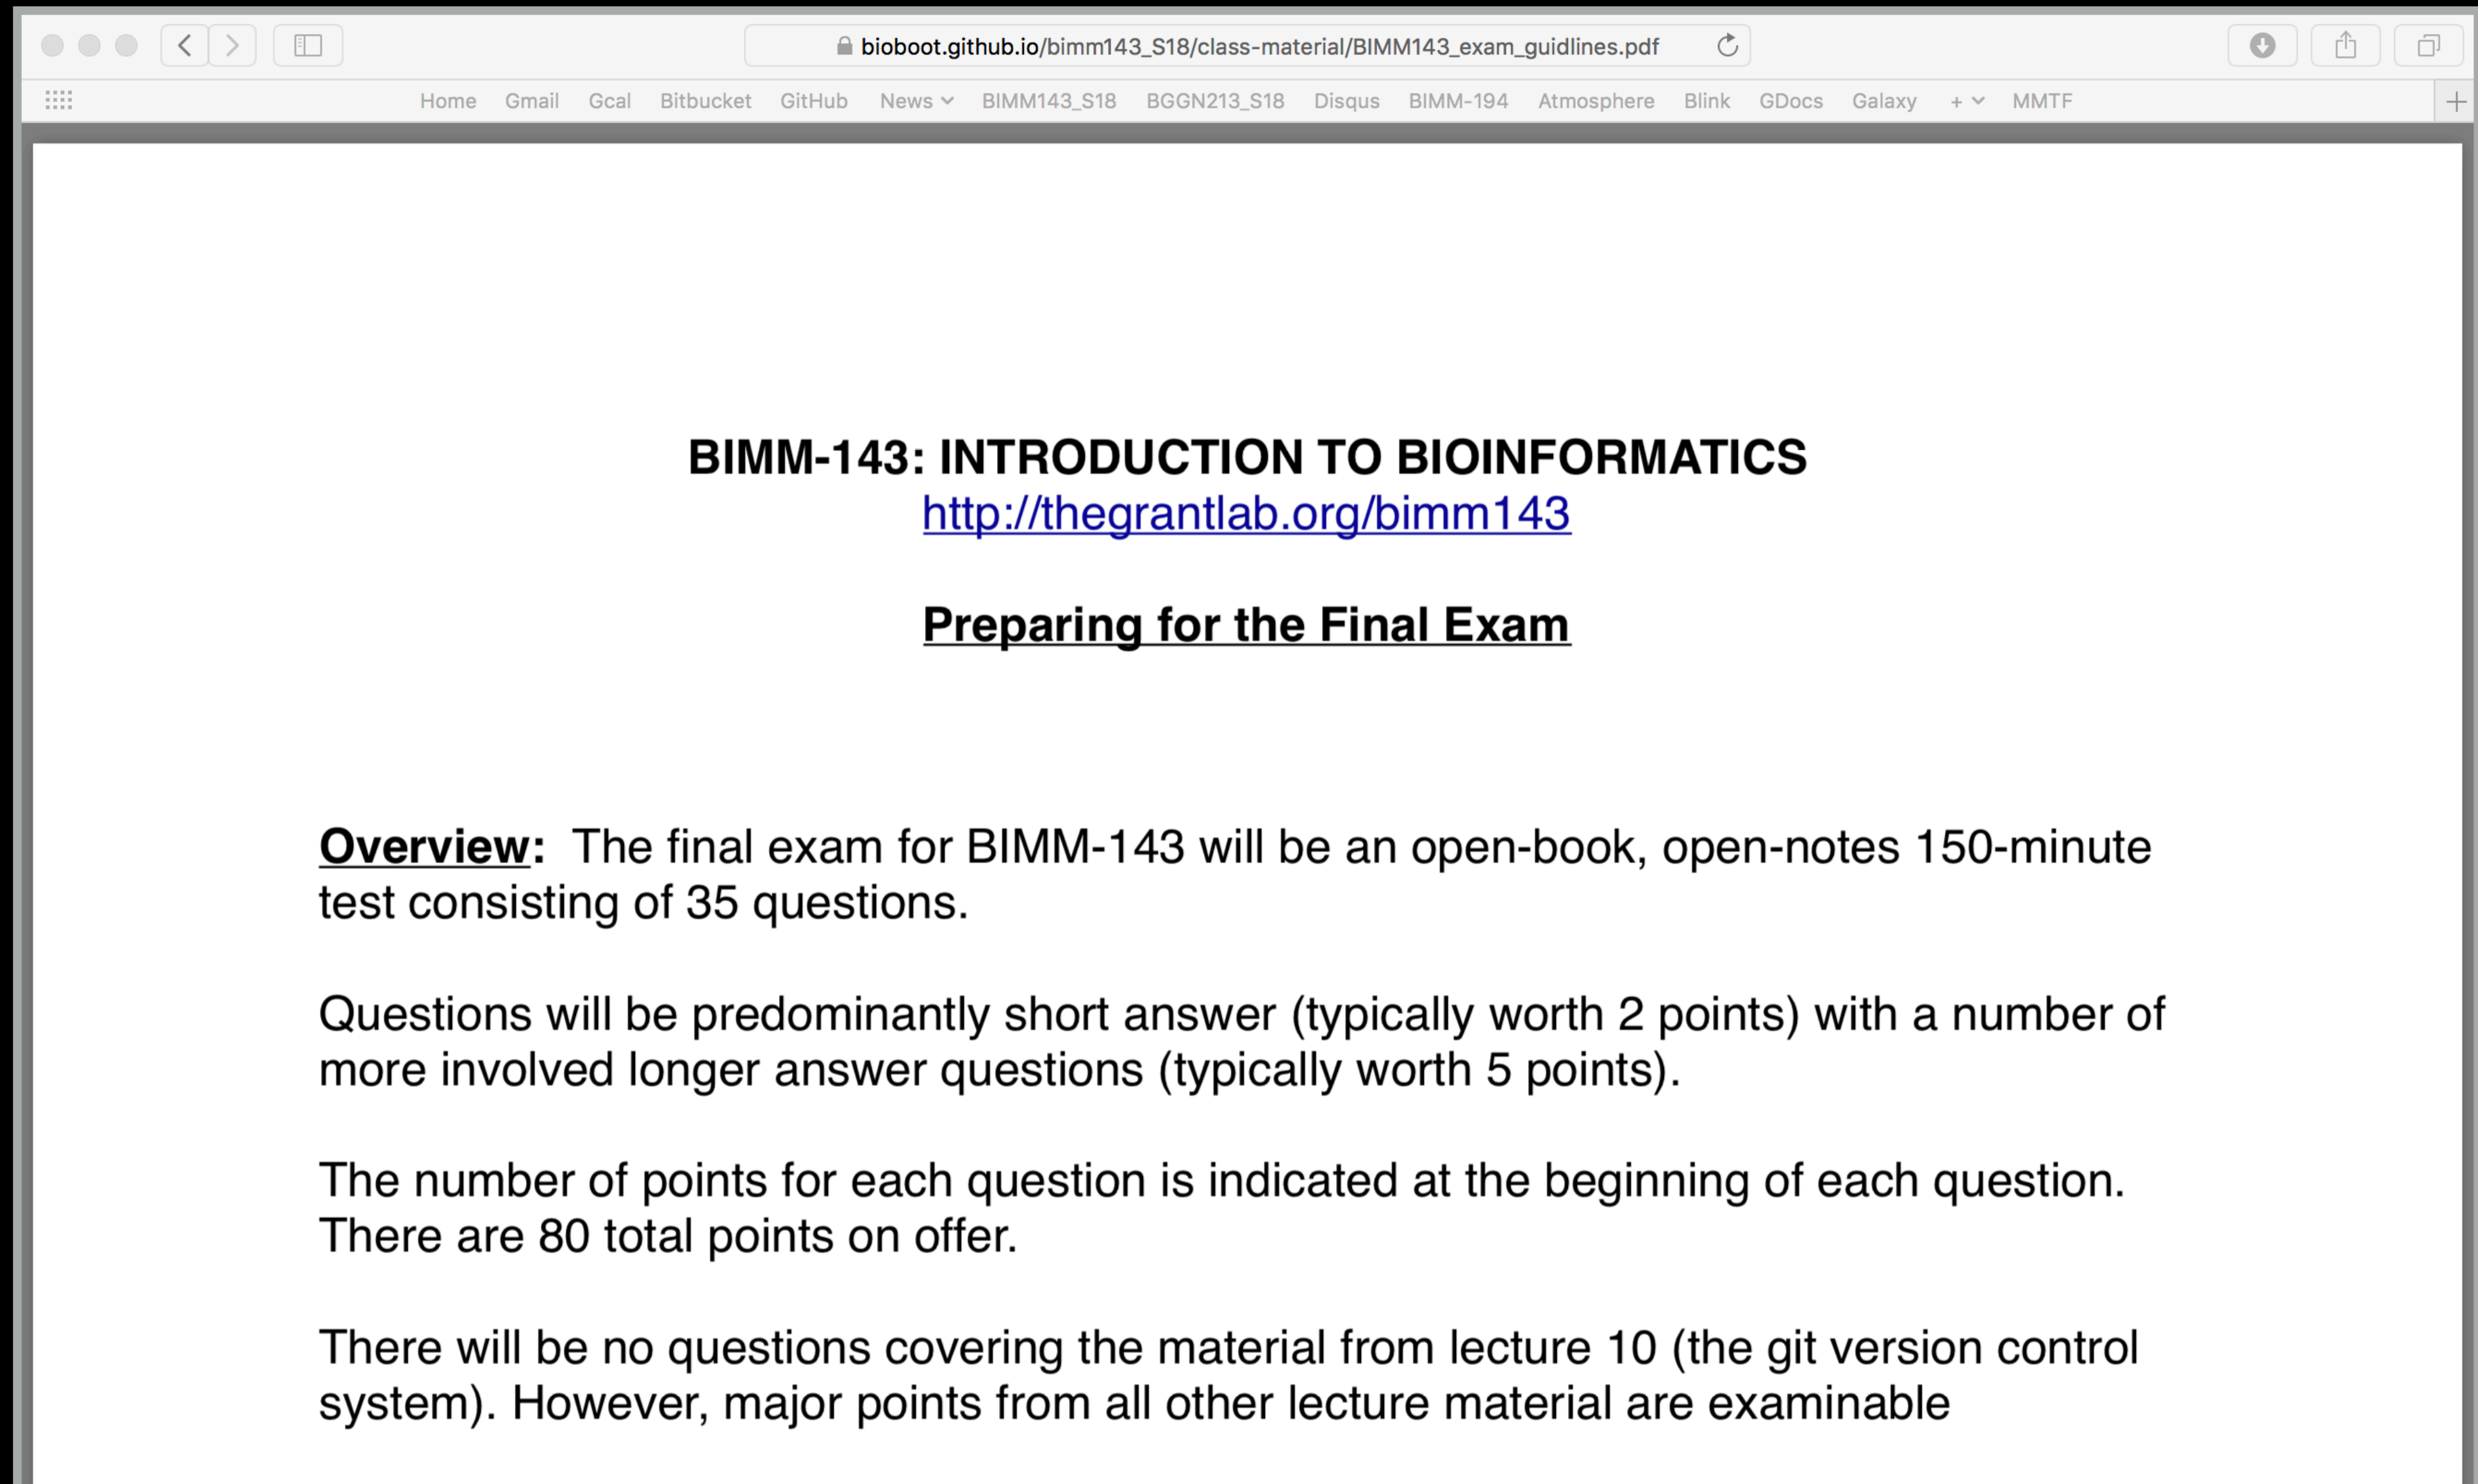

UC San Diego

<http://thegrantlab.org/bimm143>

Today's Menu

- Summary of major learning goals,
- Course discussion and feedback (https://etherpad.net/p/bimm143_w19)
- CAPs evaluation incentives (<https://cape.ucsd.edu/students>)
- Final exam
 - ➔ Test structure, guidelines and rules
 - ➔ Topics and example questions
 - ➔ Exam preparation, discussion and open study
- Polish our GitHub content and publish your own website portfolios

https://bioboot.github.io/bimm143_W19/class-material/BIMM143_exam_guidelines.pdf

The image shows a screenshot of a web browser window. The address bar contains the URL bioboot.github.io/bimm143_S18/class-material/BIMM143_exam_guidelines.pdf. The browser's tab bar shows several tabs, including 'Home', 'Gmail', 'Gcal', 'Bitbucket', 'GitHub', 'News', 'BIMM143_S18', 'BGGN213_S18', 'Disqus', 'BIMM-194', 'Atmosphere', 'Blink', 'GDocs', 'Galaxy', and 'MMTF'. The main content area of the browser displays the following text:

BIMM-143: INTRODUCTION TO BIOINFORMATICS
<http://thegrantlab.org/bimm143>

Preparing for the Final Exam

Overview: The final exam for BIMM-143 will be an open-book, open-notes 150-minute test consisting of 35 questions.

Questions will be predominantly short answer (typically worth 2 points) with a number of more involved longer answer questions (typically worth 5 points).

The number of points for each question is indicated at the beginning of each question. There are 80 total points on offer.

There will be no questions covering the material from lecture 10 (the git version control system). However, major points from all other lecture material are examinable

- Q1.** Did you enjoy this course? (Rank in relation to others you have experienced at UCSD)?
- Q2.** Should this course be offered again?
- Q3.** If so what changes would you recommend for this course? (e.g. more/less DataCamp & Projects)
- Q4.** Was the course effectively organized (lecture and lab material online vs handout or TritonEd site)?
- Q5.** What advice would you give to another student who is considering taking this course?
- Q6.** Considering both the limitations and possibilities of the subject matter and the course, how would you rate the overall effectiveness of this course and instructor?
- Q7.** Do you agree or disagree - The course developed my abilities and skills for the subject?
- Q8.** On average, how many hours per week have you spent on this course, including attending classes, doing homework's and assignments?
- Q9.** Any other comments you would like to share?

EtherPad Version: https://etherpad.net/p/bimm143_w19

Form Version: <https://tinyurl.com/bimm143-end>

Thank you very much!

Class 14 - [Transcriptomics and RNA-Seq Analysis](#)

In your web browser navigate to your GitHub class repository < <https://github.com/> >

Side-note:

To find the link to your GitHub repository from RStudio, open one of your past class projects and in the terminal type:

```
git remote -v
```

The screenshot shows a web browser window displaying a GitHub repository page. The address bar shows the URL github.com/bioboot/bimm143_fall18. The page header includes navigation links like Home, Gmail, Gcal, Bitbucket, GitHub, BIMM143_F18, BGGN213_S18, BIMM-194, GDocs, Disqus, Blink, News, Atmosphere, Galaxy, and MMTF. The repository name is **bioboot / bimm143_fall18**. It shows 1 watch, 0 stars, and 0 forks. The repository description is "My class repo for bimm143 at UCSD". It has 22 commits, 1 branch, 0 releases, and 1 contributor. The current branch is **master**. There are buttons for "New pull request", "Create new file", "Upload files", "Find file", and "Clone or download". The commit history shows a recent commit by **bioboot** titled "Add class18" and two folders: **class05** (Add class 5) and **class08** (add class08).

Or for a given GitHub tracked file click **GIT** icon and **"VIEW on GITHUB"**

The screenshot shows the RStudio interface with a file named "lecture18part2example.Rmd" open. The Git icon in the top toolbar is highlighted with a red box. A context menu is open over the file, with the "View 'lecture18part2example.Rmd' on GitHub" option highlighted by a red box. A red arrow points from the text "VIEW on GITHUB" in the top instruction to this menu option. The menu also includes options like "Diff", "Log", "Revert", "Commit...", "Pull Branches", "Push Branch", "History", and "Project Setup...".

```
70  ````{r}

Repository Settings

Head over to your [GitHub](#) class repository (where you are “pushing” all your class work)

Click on the **Settings** tab.

Theme chooser

Scroll down to the **GitHub Pages** section. Press **Choose a theme**.
And set the **Source** to "master branch"

GitHub Pages

[GitHub Pages](#) is designed to host your personal, organization, or project pages from a GitHub repository.

Source

GitHub Pages is currently disabled. Select a source below to enable GitHub Pages for this repository. [Learn more](#).

None ▾

Save

Theme chooser

Select a theme to build your site with a Jekyll theme using the `master branch`. [Learn more](#).

Choose a theme

Pick a theme

Choose one of the themes from the carousel at the top.

When you're done, click **Select theme** on the right.

The screenshot shows the GitHub theme selection interface. At the top, there is a navigation bar with the GitHub logo, a search bar labeled "This repository", and links for "Pull requests", "Issues", and "Gist". To the right of the navigation bar are icons for notifications, a plus sign, and a user profile. Below the navigation bar is a carousel of theme thumbnails. The thumbnails are: "Cayman" (blue and green gradient), "Slate" (black and white), "MERLOT" (blue and red), "Time Machine" (grey with a printer icon), "MINIMAL" (white with black text, highlighted with a red border), and "Leap Day" (blue and yellow). Below the carousel are two buttons: "Hide thumbnails" and "Select theme".

Slate theme

Slate is a theme for GitHub Pages.

[View on GitHub](#)

Side-note:

Scroll down again to the **GitHub Pages** section to find the link to your new website.
Open this link in a **New Tab** of your browser:

GitHub Pages

GitHub Pages is designed to host your personal, organization, or project pages from a GitHub repository.

Your site is ready to be published at https://bioboot.github.io/bimm143_serina_f18/.

Change theme

Edit content

Back on the repository main page use the [GitHub](#) online editor to add content.
In particular, add links to each classes .MD file

The screenshot shows the GitHub repository editor interface for the file `README.md` in the repository `jldec / new-pages-site`. The repository has 0 Watchers, 0 Stars, and 0 Forks. The editor is currently in the "Edit file" mode, with a "Preview changes" tab also visible. The code in the editor is as follows:

```
1 ## Welcome to GitHub Pages
2
3 You can use the [editor on GitHub](https://github.com/jldec/new-pages-site/edit/master/README.md) to maintain and preview the content
  for your website in Markdown files.
4
5 Whenever you commit to this repository, GitHub Pages will run [Jekyll](https://jekyllrb.com/) to rebuild the pages in your site, from
  the content in your Markdown files.
6
7 ### Markdown
8
9 Markdown is a lightweight and easy-to-use syntax for styling your writing. It includes conventions for
10
11 ```markdown
12 Syntax highlighted code block
13
14 # Header 1
```

Commit

Enter a commit comment and click on **Commit changes** below the editor.

```
35 ### Support or Contact  
36  
37 Having trouble with Pages? Check out our \[documentation\]  
(https://github.com/contact) and we'll help you sort it out.  
38
```

Commit changes

Add content to new pages site|

Add an optional extended description...

Commit directly to the `master` branch.

6

...and you're done!

Fire up a browser and go to **<http://username.github.io/repository>**.
